GPSI Guam is a *Guam Based, SBA Certified Native 8(a) and HUBZone Small Disadvantaged Business* providing professional technical consulting services including *program and project management, administration and technical support, logistics, training, and staff augmentation* for our clients.

Our Mission:

To deliver dedicated and quality professional services for you.

Clients can expect valuable military, federal, private sector, and local experience to facilitate and mitigate solutions in support of their requirements.

Partners receive an appreciation for organization, a willingness for hard work to accomplish the mission, and a clear understanding of “teaming for success”.

A small business that thinks globally, **GPSI Guam** is prepared to support our clients and partners wherever they are situated around the world.

In the same way that Pacific Islanders used the “Galaide” (outrigger canoe), as their vehicle of transport and trade, today, **GPSI Guam** is your “*vehicle of commerce*” into the global marketplace.

GPSI Guam secured an SBA approved *Mentor/Protégé* agreement with OBXtek of Tyson’s Corner, VA. creating GPSItek JV, LLC.
